

# LEOMAR T. ABAD

## Web Developer

+639-169-232-342 @ abadleomar875@gmail.com https://github.com/DevCodeAL Cuyapo, Nueva Ecija

## SUMMARY

As a BSIT student with 2 years of hands-on experience and a strong passion for web development, I specialize in the MERN stack (MongoDB, Express.js, React, Node.js), Tailwind Css and have additional expertise in PHP and MySQL. I am seeking an internship opportunity to apply my technical skills to meaningful projects while gaining valuable industry experience and contributing to team success.

## EXPERIENCE

### Fullstack Developer

#### Capstone Connect: A Collaborative Student Platform for Project Sharing and Feedback

- 12/2024 - Present Burgos Avenue, Cabanatuan City, Nueva Ecija
- Developed a platform for students to share and comment on capstone projects.
  - Implemented a **React frontend** with a responsive UI using Tailwind CSS.
  - Created secure **user authentication** with JWT.
  - Built RESTful APIs using **Express.js** and **Node.js** to handle user data and comments.
  - Implement google sign in using OAuth 2.0 to Access Google APIs | Authorization
  - Stored and managed project information and user accounts in **MongoDB**.
